

OSM820ZCC-LAB15-Lohan vaddepally-150115236

The screenshot shows the Microsoft Azure portal interface. On the left, the 'storageaccount899' storage account is selected. The main pane displays the 'Essentials' section with details for the resource group 'myRGLocks', location 'eastus', and subscription 'Seneca College: OSM820ZCC - 1031'. The 'Properties' section shows various settings for the Blob service, such as 'Hierarchical namespace' (Disabled) and 'Default access tier' (Hot). On the right, the 'Delete storage account' dialog is open. It states: 'The following storage account and its contents will be deleted.' Under 'Resource to be deleted', it lists 'storageaccount899'. Under 'Dependent resources to be deleted', it lists 'Containers', 'File shares', 'Tables', and 'Queues'. A red circle highlights a warning message: 'storageaccount899 can't be deleted because this resource or its parent has a delete lock. Locks must be removed before this resource can be deleted. [Learn more about delete locks](#)'. The dialog has 'Delete' and 'Cancel' buttons at the bottom.

The screenshot shows the Microsoft Azure portal interface for the 'myRGLocks' resource group. The left sidebar shows a list of resource groups, with 'myRGLocks' selected. The main pane displays the 'Overview' section for the resource group. It shows a search bar, filters for 'Type equals all' and 'Location equals all', and a message: 'Showing 0 to 0 of 0 records.' Below this, there is a table with columns 'Name', 'Type', and 'Location'. A large message in the center of the table area states: 'No resources match your filters. Try changing or clearing your filters.' There are buttons for '+ Create resources' and 'Clear filters'. The bottom of the page has a 'Give feedback' link.
